

On Saturday August 1, 2009 the Dane County Foreclosure Prevention Task Force held Wisconsin's first "Fix Your Loan, Save Your Home" loan modification program. This workshop was provided, free of charge, to all members of the public who may qualify for the Making Home Affordable Program that is funded through the Troubled Asset Relief Program (TARP). The program's goal is to modify loan terms for qualified homeowners who are in foreclosure or about to become delinquent on their mortgage payments.

Approximately 175 families sought out assistance. Task force volunteers helped more than 100 families prepare and submit applications for loan modification. Families who did not qualify for loan modification were provided other loan and foreclosure counseling services.

I personally want to thank every volunteer who donated their time to make this program a success. I particularly want to thank the Wisconsin Land Title Association who provided electronic access to the membership so that we could announce and recruit volunteers for this very important workshop. Again, thank you for your time and support.
